

What's Stopping You

.....
from successfully treating your patients with neck problems?

BREAKTHRU is proud to host a course by Evidence in Motion...

Evidence-based Examination and Selected Interventions for Patients with Cervical Spine Disorders

"Learn directly from one of the pioneers in spinal manipulation research"

Course description: Participants will receive hands-on demonstration and practice of evidence based examination and selected interventions of the cervicothoracic spine and ribcage. This lab heavy course will focus predominantly on becoming proficient in a core set of spinal manipulation procedures. Exercise strategies that compliment a manual therapy approach are integrated throughout this course. In order to make this course as efficient as possible, this normally 2 day course will be reduced to 1 day and include a home study component.

**March 7th, 2008
8:00 AM-5:00 PM**

BREAKTHRU Physical Therapy and Fitness

200 Tuckerton Rd.

Medford, NJ 08055

Contact: Kevin Schnitzer PT

Phone: 856-396-2250

How do I register? Register on-line at www.evidenceinmotion.com, follow "courses" tab at the top of the page. These are hands-on interactive courses with a significant lab component, lab attire is required.

Registration is limited to provide maximum interaction with faculty. **Early registration is recommended.**

The course will be taught by Dr. Robert Wainner, PT, PhD, ECS, OCS, FAAOMPT. Dr. Wainner is a co-founder Vice-President of Evidence-In-Motion, a company dedicated to promotion and advancement of evidence-based physical therapy practice and translating evidence into practice. Dr. Wainner earned his Ph.D. in Rehabilitation Science from the University of Pittsburgh in 2000. He is internationally recognized by both clinical and scientific communities for his expertise and is a frequent research presenter at state and national meetings on the topics of advanced clinical examination techniques, evidence-based practice and manual physical therapy. For more information on Dr. Wainner and other Evidence in Motion faculty [click here](#).
